

RULES OF 42

This Charter aims to outline rights and responsibilities of users of the association 42, also called association in the present document, IT resources.

By users, we mean someone that is authorized to access the IT equipment as part of his interactions with the association.

The present charter doesn't replace the obligation to uphold the law.

1. Domain of application

The charter applies to all of the people whom, whatever their status, have access to the IT means of the association 42.

2. IT means

Are included in the notion of IT means:

- Workstations
- Servers
- Wired networks
- Wireless networks

The present charter applies to the interactions done with the IT means of the association, whether it is on site or through a channel external to the network of the school.

The present charter applies to the uses that could be done of personal IT material on the wireless network of the association.

3. Users

1. Identification

The identification is done through a login associated to one or several passwords.

The user is the only person accountable for the safety of his identification informations.

2. Obligations

Users are bound to uphold the present charter.

Users must uphold laws and regulations in action.

Users must comply with the decisions of the pedagogical team.

Users must have a non-abusive use of IT means at their disposal.

3. Duties

Users must respect the equipment and the facilities at their disposal.

Users have to report to the administration any malfunction or attempt to illegally access to IT means.

Users must give the associations administration relevant and accurate personal information and keep them updated of any changes.

4. Responsibility

The user is responsible for his or her use of the IT equipment, as well as the entirety of the information that he or she is providing to others..

The user is responsible for the use of his or her logins.

The user is responsible for the use of his or her login information, with or without their knowledge.

5. Forbidden

It's forbidden to plug equipment to the network other than the one set up by the association.

It's forbidden to unplug, move, dismantle or degrade any of the IT equipment or means installed by the association.

It's forbidden to penetrate into any of the IT means in an unauthorized way.

It's forbidden to use the login of another person or use any means that would allow you to hide the true identity of a user.

It's forbidden in general to show any behaviour that harms another person's work and tranquility.

It's forbidden to drink or eat in the working clusters.

4. Sanctions

1. Internal sanctions

Any attempt of intrusion from a user could result in the removal of his access as well as administrations sanctions.

Access to resources could be denied to any person who would have committed an action opposed to the charter.

Conditions allowing an individual to regain his or her access to the IT equipment will be defined by the associations administration.

2. Legal sanctions

The association is bound to report any violation of the law that will be witnessed.

The association reserves the right to prosecute on a legal level independently of the internal sanctions applied.

5. Protection of the personal data
